Subject: New Orleans Test

To: Raporte, Jim

Jim,
The first quarter is almost over and I haven't seen or heard of a Bristol plan from Section 32. I'm not sure why it is taking them so long to formulate a plan except that they have already received their money and they don't feel that it is a priority.

With the second quarter allocations around the corner, I would think that it is in their best interest to submit a plan. In all reality without a plan they will receive no second quarter, third quarter, or fourth quarter dollars.

Please get back to me if you have any information on the delay or have any questions.

Thanks!

Db
